The Company

In 2002, the organization has appeared with an objective to make things easier and life simpler. GM believes that the hard working world deserves a less complex life. And the human struggles need to decrease through simple access to automation.

GM has redefined switch manufacturing in India. From switches to home automation, for more than a decade we have been catering “better lives” to our customers across the country. By introducing innovation, GM incorporates advanced and imaginative products that have transformed people's lives tremendously. At GM, we believe in constant innovation and we are the market leaders in switches and other home electrical accessories.

We have made space for good technology for every home by introducing some revolutionary products like new generation switches, home automation, Bluetooth music players, home security products, switchgears and brilliant contemporary range in LED lighting and luminaires.

Our innovations are the result of a strong research & development team, which is further complimented by an equally dedicated, and capable product design team. Our state-of-the-art manufacturing facility is spread around 2.5 lakh square feet with the most efficient and high-grade machinery that produces the finest quality products that carry the GM logo.

Welcome to the most luxurious experience

I was always fascinated by GM's idea of luxury and therefore this successful association. Luxury is one brilliant idea. That one idea that further helps in creating functional products. GM understands how important experiences are, and that is what we inculcate in our designs. FourFive is about classic timeless forms to unconventional designs, and we find inspiration from everything.

Being GM's brand ambassador, I believe that luxury is that state of mind where experiences aid in creating the right mindset. GM's motive of offering convenience to a million, got my instant consent of collaboration. Moreover, with our passion towards our work, the excellence in creating products of exceptional quality, I can relate with my belief of giving it my all for that one perfect shot.

With all my heart, I welcome you to have the most luxurious GM experience.

Suniel Shetty
(Brand Ambassador)

A white, handwritten signature of Suniel Shetty is overlaid on the image. The signature is fluid and cursive, written over a photograph of a person's legs and feet sitting on a sofa in a dimly lit room. The person is wearing dark trousers and shoes. In the background, there is a coffee table with a vase of white flowers and a small bowl of fruit.

A man in a plaid shirt and glasses stands by a large window, looking out. The scene is set in a modern office with a large circular light fixture on the ceiling and a desk with a laptop and coffee cup in the foreground. The right side of the page is overlaid with a semi-transparent blue panel containing the table of contents.

Content

- 19 Gang Box
- 20 Colour of Plates

Setting the trend

While Cuba switches shift angles effortlessly, they are always on your side when it comes to your preferences. With their dramatic cuts and moulds, they add unique character to your interiors. They become an intrinsic part of your home with their comforting switching qualities and graceful exterior, thus setting the trend of granting interiors a flavour of individuality.

Loco
LED Track Light

Lato
LED Downlight

Lights to accentuate and impress

The future of living standards is more about an ecological and culturally satisfying world. In recent years we have seen the capacity and opportunity of utilization of given resources. GM takes the liberty of innovating LED technology with its LED lighting and luminaires with regular down lights, panel lights, surface lights and other residential and industrial applications.

The PRO
in
LED
is here

GRACE

reddot
design award winner

The Red Dot Design Award is one of the most prestigious design awards worldwide and honours innovation, concepts and visions. GM Modular in its innovative endeavour is proud to have earned this award in Design discipline of 2019.

In a league of its own chasing excellence, GM's Zephyr pedestal fan is certainly a memento of a great design.

Zephyr PEDESTAL FAN

The iF Design Award is recognized as a symbol of design excellence around the world. It aims to draw attention to particularly well-designed industrial products. iF International Forum Design GmbH is one of the world's most celebrated and valued design competitions.

AirMate
PEDESTAL FAN

90° HORIZONTAL OSCILLATION

MystiQue

PEDESTAL FAN

- DC motor, silent care
- Wider angle air flow supply with internal oscillation orbit design
- Faster air delivery speed, longer air flow distance of the dispersed wind
- 24 speed levels
- 12 Hour programmed timer
- Power-off memory function
- LED display, easy to check speed level
- 2-in-1 function: stand and table fan

To make a better world, make life simpler.

It is what we strongly believe in. It is not just about innovating products, it's about everything we do that affects people and environment around us. We find us responsible to do things differently and in a better way. These are few initiatives we have already set into motion.

CLIMATE IMPACT

GM Modular supports the Climate Impact cause. We want to help carve a better cleaner world and that is why we started a strategic policy initiative. We are committed to align operations and strategies with environment friendly principles.

RECYCLE

We constantly find ways to make more out of less. That is why we try our best to use a recyclable resource. From tiny metal pieces to whatever that can harm the environment in reproducing, we reuse it.

LESS TRANSPORT

We have regional distribution centres spread across the country. In order to reduce the distance that our products have to travel to reach our customers, we have distribution centres with our channel partners to cut down on the transportation distance that helps curb CO2 emissions.

BETTER HOME ENVIRONMENT

A good home environment is important for your health and well-being. It is not only the ventilation and construction materials, but also the things you have inside, that influence the indoor environment of your home. GM refrains from using any harmful raw material that may cause unhealthy circumstances to life.

CERTIFIED

To help consumers make qualified decisions in choosing products that contribute to a healthy lifestyle, GM products have received safety certifications from around the world, as they have been tested thoroughly with regards to their functioning.

Harmonizing design and technology

The GM product range sets standards in design, function and technique. GM offers high-quality design, attractive colours and numerous intelligent functions with switches and automation.

Our intent is to raise the quality of life and therefore, all products are designed to harmonize perfectly, with each other. From switches to socket outlets, from music technology to home automation, the use of GM products is not only attractive, but also convincingly comfortable. Having clear operating instructions in our packaging with the most important technical data assists in the safe and faultless installation of every GM product.
